SUPPORT . AWARENESS . RESEARCH

FOR THOSE TOUCHED BY BREAST CANCER

## BREAST CANCER - THE FACTS

In the UK:

- One woman is diagnosed with breast cancer every ten minutes
- One in seven women will be diagnosed with the disease at some point in their lifetime
- 55,000 women and 370 men will be diagnosed with breast cancer this year

A breast cancer diagnosis can be a very lonely and frightening time. Treatment including chemotherapy, radiotherapy and surgery coupled with medication for up to ten years post treatment exacerbates the fear and anxiety, leading to loss of self esteem and feelings of hopelessness and isolation.

## FUTURE DREAMS BREAST CANCER CHARITY

Future Dreams vision is that nobody should go through breast cancer alone or without hope. The charity runs Future Dreams House, the only dedicated breast cancer support centre in the UK, funds vital secondary breast cancer research, and promotes breast health awareness.

Future Dreams receives no statutory funding and relies on the generosity of individuals, companies and trusts to fund its work. We actively seek to work with companies to raise vital funds PLUS raise awareness in the workplace of good breast health. Knowing the signs and symptoms of breast cancer, early detection and diagnosis can save lives.

**If you would like to get involved, raise awareness of Future Dreams in your workplace, book a Breast Health Masterclass with our breast care nurse, participate in an event or challenge activity or simply **GO PINK** during Breast Cancer Awareness Month this October, please to get in touch. We would be delighted to meet with you online or person.**
